- Ergonomic
- Optimal size

Designed for feature phones, smartphones and tablets, the Savox Promate RSM-30 is a rugged remote speaker microphone with push-to-talk and full duplex call functionality, large buttons for use with gloves, IP 55 protection level and a variety of optional earpieces to make your work easier.

James Bertram - Assistant Coordinator Largs First Responder Unit - Scotland

"The unit is very easy to use. All the functions are self explanatory apart from the multi function button which is easy to master and you can use that button to swap between different types of system/phones."
