

SAMSUNG

Galaxy XCover6 Pro

Galaxy XCover6 Pro is designed to provide businesses, across any vertical, with the right tools to support their daily tasks. The rugged design is built to withstand heavy use, in any environment, outside of ordinary office conditions. The powerful performance allows for fast sharing of information and collaboration between colleagues, while the desktop-like experience, via Samsung DeX, and long-lasting battery makes it convenient to keep working anywhere. Business owners can trust that their bottom line and privacy are protected with government certified security of Samsung Knox, from the chip up.

STRONG DURABILITY

MIL STD 810H

Galaxy XCover6 Pro is MIL STD 810H certified to meet many standards for altitude, humidity, immersion, salt fog, dust, vibration, drops and more. Customers can trust their devices to be reliable and work within any environment, thus reducing downtime.

IP68

Galaxy XCover6 Pro is dust resistant and water resistant (up to 30 minutes in fresh water, for up to 1.5 metres). This will give customers the confidence to use their device indoors/outdoors, regardless of the working conditions.

Sanitization

Customers can feel comfortable to sanitize Galaxy XCover6 Pro, without worrying about damaging the display or possible liquid intrusion. It has been tested to withstand liquid ethanol, ethanol cotton, Clorox (chlorine bleach) and Medilox HCIO.

Gorilla Glass Victus+

The most durable screen on a smartphone device

SAMSUNG

PC-LIKE EXPERIENCE (DeX)

Samsung Dex is the ultimate productivity tool for workers on the go. With DeX, workers can wirelessly connect their Galaxy XCover6 Pro to a smart monitor or TV and cast their presentation, without the need for cables or adapters. In today's hybrid workplace, DeX is the perfect tool to share and collaborate.

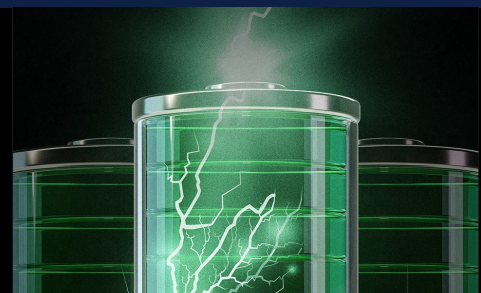

POWERFUL PERFORMANCE

Galaxy XCover6 Pro provides powerful performance to ensure businesses can run processor heavy programs, with little to no delay. Workers can experience no latency when collaborating, browsing or creating, no matter what task is at hand. Businesses can trust that Galaxy X Cover6 Pro can support day-to-day operations.

LONG-LASTING, REPLACABLE BATTERY

Galaxy XCover6 Pro has a large battery to ensure workers can get tasks done, on a single charge. When the work day runs longer or additional power is required, the replaceable battery ensures devices stay running, with no downtime in field.

TRUSTED SECURITY

Samsung Knox ensures business users' information is safe and protected, from the chip up. Sensitive work information is secured with government-certified data encryption, which is built and designed to withstand the most demanding security challenges of today's workplace. Knox Suite ensures IT departments can seamlessly deploy multiple devices, remotely and securely, providing granular access to apps and features that are role specific.
